- Mint
- Wheatgrass

SPECIALTY INGREDIENTS

6 ingredients

- Neem leaves
- Curry leaves
- Okra (bhindi)
- Green peas
- Bottle gourd
- Lemon peel / powder

DON'T SEE YOUR INGREDIENT?

We can dehydrate virtually any agricultural product to a client's specification. Tell us what you need - we'll evaluate the raw material, processing feasibility and required finish with you.

02 / WHERE IT FITS

Food and beverage applications.

Practical examples to help you spot an ingredient for a product you already make - or an upcoming formulation.

01 SOUPS, STOCKS & PREMIXES

Cup soups, broth powders, gravy bases, ready-to-cook soup sachets.

Ingredient ideas: Tomato, onion, garlic, carrot, green peas.

02 SNACKS & SEASONING COATINGS

Namkeen, chips, makhana, extruded snacks and dry seasoning blends.

Ingredient ideas: Chilli, onion, garlic, mint, curry leaves.

03 NOODLES, PASTA & READY MEALS

Instant noodle tastemakers, sauce mixes, pasta kits and ready-meal bases.

Ingredient ideas: Tomato, garlic, ginger, onion, green peas.

04 BAKERY & SAVOURY MIXES

Crackers, savoury breads, rolls, instant dough mixes and fillings.

Ingredient ideas: Onion, garlic, spinach, basil, tomato.

05 SAUCES, DIPS & CHUTNEYS

Dry chutney blends, dip premixes, marinades and sauce bases.

Ingredient ideas: Tomato, chilli, garlic, mint, lemon peel.

06 DRINKS & SMOOTHIE MIXES

Vegetable drink powders, smoothie sachets and flavoured wellness mixes.

Ingredient ideas: Beetroot, amla, moringa, ginger, wheatgrass.

07 SPICE, HERB & MARINADE MIXES

Recipe masalas, herb seasonings, rubs, ready-to-use flavour bases.

Ingredient ideas: Turmeric, ginger, basil, mint, curry leaves.

08 BREAKFAST & INSTANT MEAL MIXES

Instant savoury breakfasts, vegetable-enriched mixes and meal kits.

Ingredient ideas: Carrot, spinach, beetroot, potato, green peas.

Application ideas are indicative. Ingredient suitability, sensory performance and compliance must be validated for each finished product.

03 / MORE INDUSTRIES

Beyond the food mix.

One ingredient can play different roles across industries. Here are buyer-relevant concepts and the agricultural ingredients worth exploring.

01 / NUTRACEUTICAL & WELLNESS

Powder blends, drink sachets, superfood mixes and capsule/blend ingredients.

Explore: Moringa, amla, wheatgrass, beetroot, spinach.

02 / COSMETICS & PERSONAL CARE

Herbal face packs, dry masks, soap botanicals, body scrubs and powder cleansers.

Explore: Neem, turmeric, amla, moringa, mint, lemon peel.

03 / HAIR CARE & HERBAL BEAUTY

Dry hair masks, plant-based hair-pack mixes and wash-off botanical powders.

Explore: Amla, neem, curry leaves; additional botanicals by request.

04 / AYURVEDIC & HERBAL BRANDS

Traditional botanical blends and wellness products for further manufacturing.

Explore: Amla, neem, moringa, turmeric, bitter gourd.

05 / PHARMACEUTICAL FORMULATION R&D;

Potential botanical raw-material inputs where validated specifications and approvals permit.

Explore: Amla, turmeric, neem, ginger - only after grade qualification.

06 / PET & ANIMAL NUTRITION

Selected vegetable inclusions and nutritional blend ingredients, where feed approved.

Explore: Carrot, green peas, moringa, beetroot, spinach.

07 / HORECA & CENTRAL KITCHENS

Kitchen-ready soups, curries, sauces, stocks, gravies and seasoning systems.

Explore: Onion, garlic, tomato, chilli, ginger, curry leaves.

08 / PRIVATE-LABEL & INGREDIENT TRADERS

Single-ingredient SKUs, proprietary blends and buyer-brand packed products.

Explore: Choose from the catalog or discuss an additional raw material.

Important: cosmetic, supplement, pharmaceutical and feed applications require buyer-led assessment of permissible use, quality grade, safety, testing and applicable regulations. We do not claim pharmaceutical-grade or certified suitability for every application.

04 / CAPABILITY

Focused on your specification.

A practical, machine-assisted journey from carefully sourced crops to your buyer-specific ingredient.

FARM TO FINISHED INGREDIENT

A consistent sequence, adapted when an ingredient does not need peeling, slicing or milling.

01 SORTING
Remove foreign matter

02 PEELING*
Machine peeling

03 WASHING
RO-purified water

04 SLICING*
Uniform size

05 WATER REMOVAL
Before drying

06 DRYING
Controlled airflow

07 PULVERISING*
To requested grade

08 WEIGHING
Batch quantities

09 PACKAGING
Moisture protection

** Applied where required. For flakes or granules, the finishing stages are adapted to the requested product.*

MACHINERY & HYGIENE

- SS304 food-grade contact surfaces throughout the processing line.
- Nylon-brush roller peeling machine, where the product requires peeling.
- RO-purified wash water with TDS and pH monitored.
- Enclosed production with conditioned and dust-purified critical areas.
- Protective clothing, gloves, masks and hair covers in production.

SOURCED WITH PURPOSE

- Raw produce sourced directly from farming belts across Maharashtra.
- Incoming material checked and sorted before processing.
- Uniform slicing and controlled drying support reliable outcomes.
- In-line metal detection on the powder pulverising line.
- Weighed, sealed and labelled in food-grade, moisture-protective packs.

05 / HOW WE WORK

Your formulation. Our flexibility.

Need a single ingredient, a proprietary mix or finished packs under your own label? Start with your intended product - and we will work through the details.

CUSTOM BLENDS & PRIVATE LABELLING

Looking for more than a single-ingredient powder? From seasoning mixes and superfood combinations to a formula unique to your brand, we can discuss custom blending and development to your brief.

01 CUSTOM BLENDS

Your formulation and required finish.

02 PRIVATE LABELLING

Buyer-branded packs for retail or production.

Your product, your brand - we handle the processing.

QUALITY ASSURANCE & DOCUMENTATION

We approach quality as part of every stage - from source selection and hygiene controls to batch records, purity checks and traceability.

01

BATCH QUALITY

Batch-wise purity and microbial testing can be arranged or supplied to agreed buyer requirements.

02

BUYER DOCUMENTS

Shipment documents: lab reports, quality certificates, traceability and export papers as agreed.

03

CERTIFICATION STATUS

Working toward FSSAI-related requirements and ISO / HACCP-aligned systems; please request current certification status on enquiry.

PACKAGING & ORDER DETAILS

AVAILABLE FORMATS

Fine powder | Coarse powder
Flakes | Granules
Mesh or cut size as per buyer specification.

PACK SIZES & LABELLING

5 kg | 10 kg | 20 kg | 25 kg
Moisture-proof bags; custom labels available.
Operational facility; bulk orders welcome.

Tell us what you need to make.

Tell us the ingredient, intended application and required form. We can discuss feasibility, samples, specifications and ongoing supply.

To receive a useful quotation: share the ingredient, powder / flake / granule grade, target mesh or size, quantity, destination, packaging and test/certification needs.
